	ADULT VICTIM OFFENCES RECORDED AS A PROPORTION OF OVERALL SSC RECORDED															49%

TABLE ONE gives a breakdown of Serious Sexual Crime by Victim age (2014/2015 vs 2013/2014)

For information the above table gives a breakdown by victim age and sexual offence type for Recorded and Solved offences.
SR* Solved Rate is where Outcome 1 to 8 minus 5 has been assigned to an offence.

Where No Victim Age* has been recorded relates to those offences where the victim details are withheld or where the victim date of birth has been omitted from the crime report.

Last Year	D.A RELATED SSC OFFENCES RECORDED (ALL) WHERE VICTIM CHILD AS A PROPORTION OF ALL SSC RECORDED WHERE VICTIM CHILD										6%	SSC-ALL (where Child Victim)					724

For information Domestic related offences are those offences on Crime File where the Domestic Incident Description attribute equals 'Yes'. In respect of solved offences on Crime File the same criteria applies, while in respect of the Crime Recording System it is those offences where the Domestic 'flag' is set at 'Yes'. This criteria is the same as that used for Chief Officer monthly MAP meetings.

DA - Familial Relationship* is where the Domestic Incident Description attribute equals Yes on Crime File (CRS Domestic flag = Yes) and where the relationship between the Victim and Suspect (s) is familial. Please note that there is no specific marker denoting a familial relationship on the Crime System - however a judgement can be made based on the attribute 'victim suspect relation description'. To clarify a familial relationship is where the victim suspect relation description attribute clearly records a family connection. The relationship of the suspect to the victim will therefore be a family one :- ie :-that of brother, step brother, brother in law, cousin, husband/ex husband, father, step -father, father -in -law, Grandparent, son, Uncle, wife or ex wife (etc).
