### **BENEFITS AND RISK/FINANCIAL IMPLICATIONS**

The review of expenditure against the profiled budget is part of the overall financial control process of the Authority.

In exceptional circumstances it allows for budget virements to ensure that under spending against budget heads can be utilised to fund expenditure against other priorities.

If virements are not made there is a risk that the Authority will miss out on opportunities to improve performance and meet key objectives during the year.

The Authority's reserves are at the upper end of their target range and the Authority is able to fund short term fluctuations in activity from them when necessary.

The review of the management accounts is one control measure to mitigate the risk of overspending the Authority's budget for the year.
