1. Executive Summary

The 2022/23 Medium Term Financial Strategy (MTFS) was set on 3rd February 2022 as part of the 2022/23 budget report to the Police, Fire and Crime Panel. This decision report sets out the approved position (a revenue shortfall of £2.8m in 2023/24), as well as the forecast on the Capital Programme (capital expenditure forecast to be £17.9m in 2022/23) and reserves (revenue reserves forecast to be 4% of net revenue expenditure at 31st March 2022).

2. Recommendations

To consider the assumptions contained within this report and endorse and approve the current 2022/23 Medium Term Financial Strategy (MTFS) position as approved by the PFCC for reporting to the Police, Fire and Crime Panel on 3rd February 2022.

3. Background to the Proposal

The MTFS is a service planning and performance management framework which aims to ensure that resources are directed towards achieving delivery of the vision for the next five years and the Police and Crime Plan.

At the February 2022 Police, Fire and Crime Panel meeting, the MTFS presented alongside the 2022/23 budget was forecasting a shortfall of £2.8m in 2023/24 and a total shortfall of £3.7m over the five-year period up to 2026/27. The forecast was built on various assumptions including a 2.5% council tax precept increase each year.

Capital expenditure was forecast to be £17.9m in 2022/23 and a further £24.7m in 2023/24 and £36.6m in 2024/25. The Capital Financing Requirement (CFR) represents capital expenditure incurred and forecast to be incurred that has not been financed by cash resources and is an indicator of our underlying need to borrow to fund the investment programme. Actual borrowing will be a combination of internal and external borrowing. The CFR was forecast to reach £81m by 2026/27 with an annual revenue cost of prudential borrowing (MRP and interest) reaching £4.6m by 2026/27 representing the revenue costs from our capital investment plans over the medium term (contains investment plans approved and still subject to approval).

Revenue reserves were forecast to be £26m (4% of net revenue expenditure) at 31st March 2022 and £17.2m by 31st March 2026 (3.2% of net revenue expenditure).
