Meeting	Performance and Resources	Agenda no.	14
Meeting Date	2 February 2023		
Report Authors:	James Palmer, Head of Response		
Presented By	James Palmer, Head of Response		
Subject	Response Strategy Update		
Type of Report:	Information		
Action Point No.		For Publication	Yes

RECOMMENDATIONS

That the Board note the progress against the Response Strategy.

EXECUTIVE SUMMARY

This report has been produced to provide P&R with a progress update against the implementation of the response strategy and activity completed since the launch of the response strategy in late 2021.

BACKGROUND

Since the launch of the Response Strategy a review of our reporting methodology has been developed to enable progress against this strategy to be identified.

The response function continues to be committed to delivering against the response strategy and is continuing to evolve governance to ensure this progress is measured in all areas of response.

OPTIONS AND ANALYSIS

This report highlights the key areas of progress thus far against the implementation of the Response Strategy.

STRATEGY LAUNCH

Launching the Response Strategy focused on both internal and external stakeholders, ensuring clear, concise messaging, and importantly outlining the direction of travel for the lifetime of the Strategy.

GOVERNANCE:

Since the launch of the Response Strategy the governance structure has been developed and a review of the Directorate meeting has been carried out. The new meeting structure provides greater transparency of decision making and accountability. This board feeds into continuous improvement board by exception through Extended Leadership Team and the Head of Response. The board has as its attendee's key staff across the response function and other areas of the business that are vicariously responsible for delivery of key elements of the response strategy such as Prevention and Protection.

The Directorate updates will be performance focused to enable board members to provide:

- Strategic and tactical updates on performance targets and projects and continually improve Service delivery through the PPR directorate
- Create a shared vision and understanding of Service priorities
- Inform reporting to other appropriate boards to enable working in collaboration and reduce isolation and duplication of efforts
- Highlight concerns for decision for escalation to appropriate boards or departments
- PFCC awareness on P-P-R performance and Service priorities

Activity since strategy last update:

- 1) Control have changed their procedures for incidents where an attendance is not immediately needed. In incidents of this nature, they will now close the incident and reopen another incident once an attendance is required. This will cause a moderate increase in our call numbers but will enable us to even more accurately report on response times.
- 2) A methodology has been created and approved by the AM Response for creating and reporting on call handling times for control operators. This will create targets for call handling times for each control operator with not just an average time but a level of confidence.
- 3) Work is continuing with the Group Manager restructure and is set to conclude on the 31st March 23.
- 4) Station Managers who manage on-call stations have been tasked with creating action plans for those stations that are >10% under target for availability.
- 5) Work is ongoing around more flexible use of on-call. The South West Command are piloting increased use of on-call moves to provide a more flexible resource and ensure appliance availability is increased.
- 6) Bespoke station plans have been developed to ensure that station activity is targeted at the risk specific to that area.
- 7) A review of the risk information procedure has been commissioned and is being started in February. The Office of the Police Fire and Crime Commissioner is included in this review.

- 8) A business case has been submitted to ensure the future funding and viability of the on-call support team. This team will continue to provide support, training and guidance to the on-call colleagues.

RISKS AND MITIGATIONS

None specifically linked to this update

Response

FINANCIAL IMPLICATIONS

None Associated with this paper.

LEGAL IMPLICATIONS

Essex County Fire and Rescue Service has a legal duty under the Fire and Rescue Services Act to provide a resilient response to emergency incidents. This update is intended to demonstrate the work being done in the response function.

STAFFING IMPLICATIONS

None Associated with this paper.

EQUALITY AND DIVERSITY IMPLICATIONS

We have considered whether individuals with protected characteristics will be disadvantaged as a consequence of the actions being taken. Due regard has also been given to whether there is impact on each of the following protected groups as defined within the Equality Act 2010:

Race	N	Religion or belief	N
Sex	N	Gender reassignment	N
Age	N	Pregnancy & maternity	N
Disability	N	Marriage and Civil Partnership	N
Sexual orientation	N		

The Core Code of Ethics Fire Standard has been fully considered and incorporated into the work that has been and will continue to be done in delivery of the response strategy

HEALTH AND SAFETY IMPLICATIONS

None associated with this paper

CONSULTATION AND ENGAGEMENT

None required for this update paper.

FUTURE PLANS

The response function is committed to continual improvement in line with the service's strategic intent. Further update papers will be provided to show the direction of travel.

The future plans included:

- A continued focus on recruitment and retention of on-call firefighters
- A review of how training courses are prioritised across the response function
- A review of how our stations can best be utilised to support community engagement and on-call availability
